

STATUS AND CREDITS WHILE ABROAD

- ➔ While abroad, students will remain registered at ASU (computer accounts remain active, students can pre-register while abroad, etc. - just like they are here on campus)
- ➔ Students earn **ASU RESIDENT CREDIT** on all ASU study abroad programs, meaning they will be full-time students and their **GRADES** will count!!
- ➔ **Faculty Directed Programs** each have a specific academic focus, and will therefore require all participants to enroll directly in the ASU course(s) taught on the program. Review the Study Abroad Office website for details on each program's academic focus and the courses offered on those programs.
- ➔ **Students on Faculty Directed Programs** are asked at the time of application to list which courses they would like to take. This is not enrollment form, however. After being accepted into the program, participants are placed in a student group that gives them permission to enroll in the appropriate courses through MyASU.
- ➔ In some **Faculty Directed Programs** students will register for more than seven credit hours per summer session, or more than 3 credit hours per winter session. Therefore, you may have to instruct your advisee on how to complete an overload petition.
- ➔ **All other study abroad programs** offer courses instructed by another academic institution. Students are enrolled in a placeholder course while they are overseas. The Study Abroad Program Coordinator will work with students to establish ASU course equivalencies for each of the courses the student has completed abroad. There is one designated equivalency provider for each department.
- ➔ Students are required to meet with you, as part of the application process, to talk about what classes they can or cannot take abroad and what requirements they need to fulfill. You will be required to sign the blue Academic Advising form before the student will be accepted to their program. Check out the Study Abroad Office website for courses that students have taken in the past. Students can print this list of pre-established course equivalencies and take it to you for review. If there is a course listed that your advisee needs to take you can write it on the form. Not all classes are listed here. If you do not see what your advisee needs to take, have him or her talk to their Study Abroad Program Coordinator about other courses that may be available.
